EDUCATION

- | | |
|---|-----------|
| • Fujian Normal University | 2021-2024 |
| <i>Cyberspace Security</i> | Master |
| • Tianjin University of Technology | 2015-2019 |
| <i>Information Security</i> | Bachelor |

RESEARCH

Field: Anomaly Detection, Graph Neural Networks, DRL, Federated Learning

- **GSAA: A Novel Graph Spatiotemporal Attention Algorithm for Smart City Traffic Prediction**
ACM Transactions on Sensor Networks (TOSN), 2023.
– [Paper], **First Author**, CCF-B
- **A Multi-Modal Spatial-Temporal Model for Accurate Motion Forecasting with Visual Fusion**
Information Fusion (INFFUS), 2023.
– [Paper] , Second Author, IF 18.6, SQI-1

AWARDS AND HONORS

- | | | |
|---|------------------------------------|-----------|
| • Outstanding student (Fujian Normal University) | | 2023 |
| • Academic Scholarship (Fujian Normal University) | <i>First, Second Prize</i> | 2023, 200 |
| • National College Student Information Security Contest (CISCN, East and South China regional competition) | <i>Third Prize</i> | 2023 |
| • The 12th Cross-Strait Information Service Innovation Contest and Fujian Province 16th Computer Software Design Contest | <i>Second Prize</i> | 2022 |
| • Huawei ICT Competition 2022-2023 Network Track (Fujian Province Practice Competition) | <i>Third Prize</i> | 2022 |
| • China Industrial Internet Security Competition (Fujian Division) | <i>Individual Excellence Award</i> | 2022 |
| • National Inspirational Scholarship (Tianjin University of Technology) | | 2020 |
| • People's Scholarship (Tianjin University of Technology) | <i>Third Prize</i> | 2020 |

EXPERIENCE

- **NSFOCUS Co., Ltd.** 2022.04-2022.05
Intern Researcher of Fuying Lab
– Responsible for the collection of network threat intelligence, vulnerability verification, and the generation of rules.
